Re: Dissolved Oxygen Monitoring Program Data Report for the Lower Passaic River Study  
Area: Summer and Fall 2012

Dear Dr. Law:

The U.S. Environmental Protection Agency (EPA) has reviewed the *revised Dissolved Oxygen Monitoring Program Data Report for the Lower Passaic River Study Area: Summer and Fall 2012*, dated November 23, 2015. The report was prepared by Windward Environmental LLC on behalf of the Cooperating Parties Group (CPG).

EPA approves the response to comments received on May 09, 2014 and the revised data report submitted to EPA on November 23, 2015. All comments were addressed. However, these data are not currently in the EPA's Passaic River EQuIS Enterprise database. Please create an electronic data deliverable of, at a minimum, the daily averages for dissolved oxygen and water quality parameters to upload to the EPA database. If there are any questions or clarifications needed, please contact me to discuss.

Sincerely,

A handwritten signature in dark ink, appearing to read "Diane Salkie".

Diane Salkie, Remedial Project Manager  
Lower Passaic River Study Area RI/FS
